# *What is important...*

**Naoual Ben Amar**  
General Manager

**Rachid Hadni**  
Chairman of the Board of Directors

***How would you describe 2023 and the environment in which the LabelVie Group has evolved?***

**Rachid Hadni** - 2023 was a particularly difficult year for our fellow citizens. Difficult for two reasons: firstly, because of high price inflation, particularly for food products, for the second year in a row. And secondly, with the Al Haouz earthquake, whose devastating effects and emotional impact are well known.

***“Our ambition is to stay as close as possible to our customers' needs, by reinforcing our position as a multi-format and multi-channel player”***

Rachid Hadni

Fully aware of its responsibility, our Group has reacted by adapting its commercial policy to the inflationary context, in order to mitigate as far as possible the impact of rising food and energy prices on the

***for us...***

purchasing power of our fellow citizens. In the immediate aftermath of the earthquake, our Group also mobilized to provide all necessary aid to disaster-stricken communities.

**Naoual Ben Amar** - Against this backdrop of high inflation, The Group has renewed its plan to mitigate inflation, which was introduced in 2022, and enhanced purchasing power support measures.

This plan, which required a budget of MAD 250 million in 2023, entailed activating a number of operational levers, including price freezes on some key products, exclusive offers, voucher distribution, and improved loyalty program rewards.

Following the Al Haouz earthquake, we made a tangible contribution to the relief effort by providing 500 tons of food supplies and donating MAD 25 million to the relief fund established for this purpose.

## **What were the Group's main highlights in 2023?**

**Rachid Hadni** - 2023 was rich in achievements for our Group.

In terms of expansion and openings, 2023 was marked by the strengthening of our multi-format and multi-channel strategy, with the opening of 24 new stores, the launch of our local discount format "Supéco" after several years of trials, and the launch of the "Carrefour Partner Program", the first franchise program in food retailing in Morocco.

2023 also saw the continuation of the Group's digital transformation program, which we initiated in 2022.

The "Label Factory" program is a strategic digital transformation initiative aiming at providing our Group with the most advanced technologies and solutions in sales, operations, logistics, finance, and HR. In 2023, this approach enabled us to increase e-commerce sales and launch the "Club Carrefour" loyalty/reward program.

**Naoual Ben Amar** - The Group has achieved all its objectives set for 2023.

Thanks to a well-developed financing policy, our Group has strengthened its balance sheet and optimized its financial expenses, enabling it to pay its shareholders a dividend of 280 million dirhams for 2023, up 12% on the previous year.

This performance was largely attributed to the successful execution of the company's sales program aimed at mitigating inflation, which, in addition to boosting sales volumes, resulted in a 10% increase in customer footfall.

**"We are determined to share the fruits of our growth with our ecosystem, our employees, our partners and our service providers."**

Naoual Ben Amar

This performance has also benefited from the volumes generated by new stores as well as continuous improvement in operating excellence. The contribution of our "Label Factory" program and the quality and ongoing commitment of our teams are the main drivers of this improvement.

Furthermore, in 2023, our Group invested MAD 1.2 million, primarily to facilitate the integration of 820 new employees and our digital transformation.

## **What are the most important objectives for the Group in the coming years?**

**Rachid Hadni** - As in previous years, the next few years will be marked by growth

and innovation. Our goal and ambition are to remain as close to our clients' demands as possible while enhancing our position as a multi-format, multi-channel player.

It is therefore critical to continue developing our brands while improving their operational and commercial performance, as well as to expedite the deployment of new growth and profitability drivers (Supéco, franchising program, e-commerce, and so on).

**Naoual Ben Amar** - To guarantee the best possible operation of the current store network and store openings, all the necessary logistics and centralized resource needs, as well as technology and digital transformation tools have been planned and put in place.

The roadmap for new store openings is clearly defined. It will enable us to strengthen our strategic positioning as a multi-format player. It covers both physical and digital retailing, as well as directly run and franchised developments.

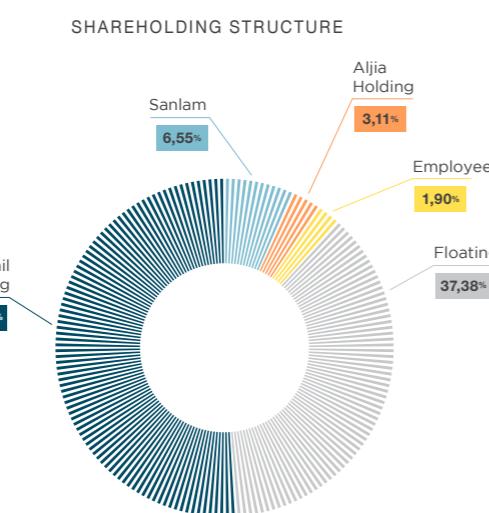

Lastly, we are committed to sharing the benefits of our development with all of our stakeholders: employees, partners, and suppliers. We reiterate our belief that growth only makes sense if it is shared through efforts related to sustainable and inclusive employment, support for the agricultural world through the establishment of sustainable supply chains, and all other actions taken as part of our ESG commitments !

# .Our impact in 2023

In a tough economic and competitive context, LabelVie Group has accelerated its expansion, made targeted investments, and innovated to better serve its clients.

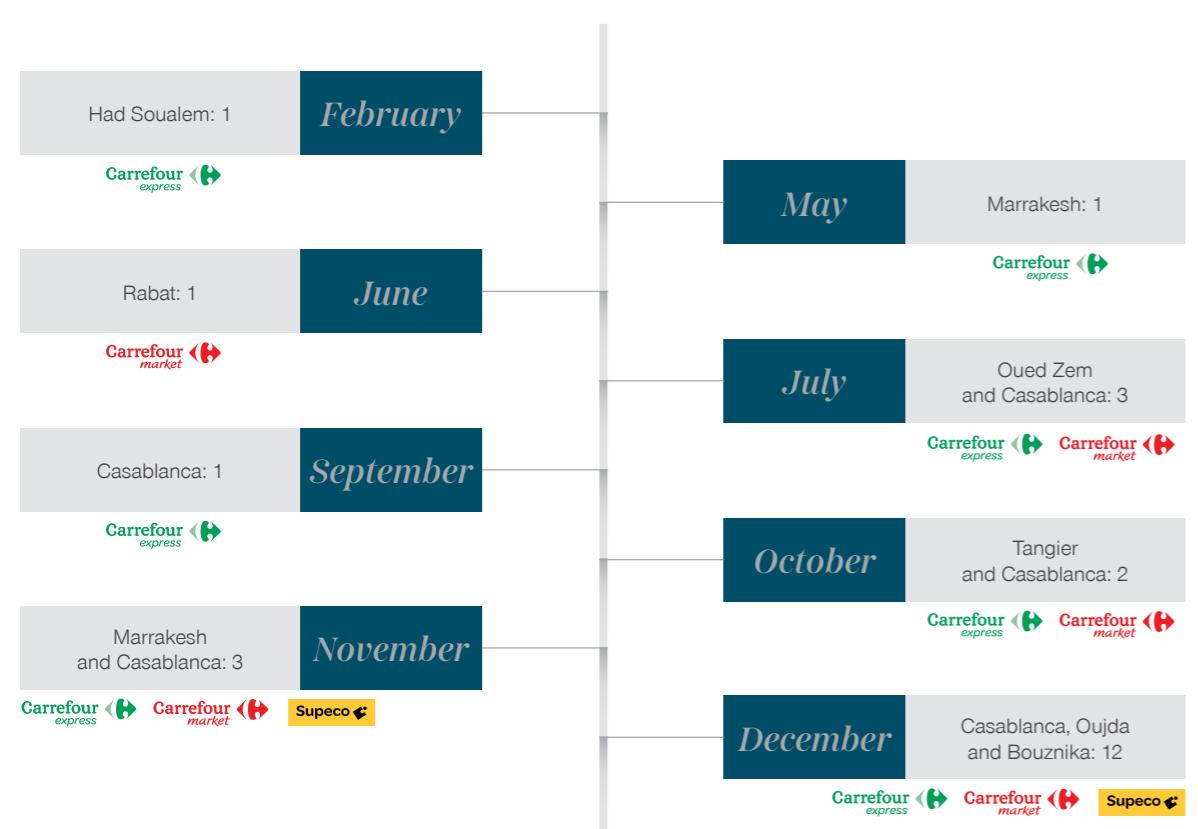

The Group's successes in 2023 set it for a promising future and prepare it to face the difficulties of its future development.

# Revitalizing our expansion strategy

## 24 new stores in 2023

To stay up with changing customer expectations and strengthen its position as a convenience retailing leader, our Group has expanded its network of points of sale by adding 24 (cross brand) outlets in 2023, increasing the total number of operational stores in Morocco to 179.

These 24 new outlets, which include 20 Carrefour Market and Carrefour Express stores and four Supeco stores, cover a total of 10,655 square meters inaugurated in one year.

## Carrefour Partner Program: encouraging local entrepreneurship through franchising

Mehdi Mansour  
Franchise Director

*"On July 4, 2023, the Group launched the «Carrefour Partner Program by LabelVie», an innovative franchise program tailored to the ambitions of people with retail experience who want to develop their own business.*

*This is Morocco's first franchise program in food retailing, with the goal of expanding the Carrefour Express brand throughout the country, accelerating national coverage of these medium-sized stores (between 200 and 500 m<sup>2</sup>) and increasing the profitability of existing stores. Professional retailers may take advantage of Carrefour's reputation, experience, and assistance to leverage their success and protect their investments.*

*By promoting local entrepreneurship, the program enhances the Group's socioeconomic footprint and contributes to the creation of new jobs in all regions of Morocco.*

*With an application process condensed on a specialized digital platform, this program is distinguished by its flexibility, which is tailored to each franchisee's profile, as well as the customized support provided at each stage of their project, from application to store opening. These training and support efforts aim to create a growth-prone environment!*

*To ensure long-term growth, franchisees can rely on LabelVie teams knowledge and assistance on sales promotion, client acquisition, and client retention (loyalty) strategies. These franchisees also benefit from the Group's central purchasing unit's complete logistical capabilities, which optimize their supply processes, secure their inventory, and allow them to provide their clients the finest products at the best prices.*

*Following the marketing and communication campaign announcing the launch of the program, that was seen by over 1,5 million people, our Group has already received 1 500 applications and opened nine pilot stores".*

## A new shopping center Atacadao in Taourirt

**Anas El Houam**  
Director in charge of Works

**"The Club Carrefour initiative, a 100% digital loyalty program, was created with the goal of helping Moroccans purchasing power in an inflationary environment. It was implemented in all Carrefour stores across the country in March 2023.**

The «Club Carrefour» reward program operates on a simple principle: every purchase our clients make earns them points, which they can subsequently redeem for vouchers.

Our loyalty program, available through the Carrefour Maroc app, provides our customers with a fluid and intuitive digital experience: all they have to do is present their virtual card from their smartphone or identify themselves at the checkout with their phone number to collect points, which they can then convert into vouchers directly from the app.

The strategy extends beyond a conventional loyalty program. The LabelVie Group is taking concrete steps to help clients better manage their budget by mitigating the impact inflation has on it. 500 000 people have already signed up and 66% are using their card at least once every month!".

**"The Atacadao brand is well known to Moroccans, and in particular to the 20 000 grocers who keep local commerce going. In the 13 stores in 12 towns across the Kingdom, with more than 7 000 products on offer over a total sales area of 64 000 m<sup>2</sup>.**

In line with the brand's growth dynamic, our Group has finalized the construction, in November 2023, of a new Atacadao shopping center in Taourirt, where the full range of Atacadao products will be offered over a surface area of 6 600 m<sup>2</sup>, as well as a diversified choice of shops and services (franchises, retail chains, service stations, parking, etc.).

Scheduled to open to the general public in 2024, the new shopping center will create 250 direct jobs and 100 indirect jobs, while promotional offers and benefits will be regularly available to residents of the area. Province, to the benefit of their purchasing power".

## Carrefour Club: strengthen our customers' purchasing power

**Najlae Dounia**  
Product Owner Squad - Loyalty Program

## E-commerce: ever closer to our customers

**Hamza Ramzi**  
Head of E-commerce Operations

**"Our Group was among the first players in the sector to launch e-commerce in 2020, with an initial partner to meet our customers needs during the pandemic.**

In April 2021, we collaborated with Glovo, which was already covering the Kingdom's major cities. In 2022, we introduced Bringo By Carrefour, our own e-commerce home ordering and delivery app.

Whatever platform our customers use, our e-commerce offering stands out for the quality and personalization of the services we provide. We attach great importance to maintaining this close relationship with our customers, including on our digital channel. An in-store preparer is the customers point of contact, preparing his or her purchase according to his or her request and expectations and ensuring that everything is in order upon receipt.

Already downloaded by 150 000 customers, Bringo By Carrefour expanded its range of services in 2023 to include eco friendly «XL rapid delivery». This delivery mode uses an electric truck to efficiently transport certified isothermal boxes, allowing customers to order a limitless number of items.

There was a 55% increase in e-commerce sales in 2023 between the two platforms (Bringo and Glovo). With the launch of our e-commerce service, 97 LabelVie stores in 23 locations around the Kingdom are now providing home delivery options to our valued consumers !

The new version of the Bringo by Carrefour application, to be released in 2024, should allow us to achieve our goals of doubling the number of app downloads and establishing these home ordering and delivery services as a permanent part of our customers shopping habits in all towns where our LabelVie brand is present.".

## Supeco: the new convenience store brand

Abdallah Ait Iazza  
Regional Manager Supeco

*"In 2023, our Group has chosen to position itself in the local discount market by launching its Supeco brand, whose concept has been defined, refined and tested over five years.*

With a surface area of less than 200 m<sup>2</sup>, a streamlined layout, and a multi-skilled staff, these convenience stores provide everyday products (basic foodstuffs, non food items, and a variety of mass-market products) at the best prices in the neighborhood.

This new brand, which plans to set up five stores in each district, caters for price conscience retail consumers seeking proximity."

# Seeking operational excellence

## Inflation control mechanisms: convincing through price, building loyalty through quality

Amine Menouni  
Research and Pricing Director

*"The LabelVie Group has expanded its policies aimed at mitigating inflation in light of the present inflationary environment in an effort to preserve the buying power of its customers and foster their loyalty.*

Specifically, we have increased our First Prices offering to cover a wide range of basic products, put a two-to-three month price freeze on more than 70 products, and reduced the prices of more than 250 everyday products.

We have also invested 24 million to keep fruits and vegetables inflation under control, and allocated 250 million to expand our storage capacity in order to anticipate and mitigate price increases.

Our customers have responded positively to our efforts: we saw a 10% increase in visits to our existing stores (excluding new openings in 2023).

By providing the best items at the most affordable prices, our Group's approach to mitigating inflation has become a major driver of consumer loyalty".

## *2023 summer campaign: attract, enhance, convince*

**Hicham Hmitti**  
Director of Openings and Remodeling

*"In parallel with the Marhaba 2023 operation, our group repeated its «Summer Campaign» operation, designed to boost awareness of our Carrefour and Carrefour Market banners in seaside towns among Moroccans living abroad.*

*The campaign was divided into two phases: the first, launched in July, sought to capture the attention of Moroccans Residing Abroad («MREs») in their home countries and on European road network. More than 6 million prospects were impacted by one or more aspects of this large-scale campaign, which was amplified this year by our collaboration with the national Highways Company (Autoroutes du Maroc). The second phase, which began in August, urged local holidaymakers to visit our stores and targeted over a million of them.*

*This summer operation was accompanied by dedicated promotional offers (distribution of discount vouchers and welcome packs) and much appreciated events! "*

## *The transformation put to work for performance*

**Mélanie Boivineau**  
Head of Digital Transformation

***"A group of this size and growth must be able to rely on robust, industrialized foundations that are constantly questioned and stabilized."***

*"Within the LabelVie Group, transformation is driven by the Label Factory. Created in 2021, this dedicated structure is in charge of directing the Group's transformation strategy, and its impact on all operational areas inside the company.*

*A group of this size and growth must be able to rely on robust, industrialized foundations that are constantly questioned and stabilized.*

*To carry out this strategic shift, the Label Factory today employs over 120 individuals who operate in various sectors and are organized into 15 multidisciplinary teams known as «squads». Agile and innovative, these teams are working to consistently improve the Group's operational excellence by transforming essential tools and processes such as the supply chain, launching a loyalty program, and establishing an e-commerce ecosystem, as well as implementing the Data platform and a suite of advanced reporting and analysis tools, all of which are levers for improving sales intelligence.*

*In 2023, for example, Label Factory teams worked on all of the processes that comprise the end-to-end supply chain, implementing a new operating mode that ensured the management and convergence of efforts with an eye toward optimization. The HR and Finance information systems will also undergo a revamp in 2023, with implementation anticipated in 2024.*

*At the same time, and because employees are the major actors and contributors to these transformation programs, numerous awareness-raising and acculturation initiatives were implemented across the organization throughout the year."*

# ESG Reporting

Our ESG report, which complies with AMMC transparency regulations, outlines the Group's environmental, social, and corporate responsibility commitments and achievements.

This non-financial report follows the ISO 26000 standards for corporate social responsibility and highlights all ESG efforts implemented by the Group between January 1 and December 31, 2023.

# *Consolidate our position as a responsible corporate citizen*

Because our operations must have a beneficial influence on all of our stakeholders, our social responsibility has evolved into a strategic driver of our performance.

By incorporating environmental, social, and societal concerns into its daily decisions, LabelVie can improve its financial performance as well as its impact on society and the environment.

Our commitment to society has been developed as a strategic driver of our performance, as stated in our own ESG Charter:

## *Valuing human capital*

- Supporting and valuing our employees
- Health, safety and well-being at work
- Combating all forms of discrimination and prohibited work
- Solidarity and equal opportunities

- Promoting local employment and professional integration of young people in difficulty
- Organizing civic actions

# Foster our human capital

Promoting equal opportunities and sustainable employment

Ghizlane Bouchamma  
HR, ESG & General Resources Director

*“Participation in the national corporate soccer championship and its women’s edition in May ; celebration of International Women’s Rights day ; organization of the «Pause Douce Heure» in various towns across the Kingdom ; Pregnant Women’s Day ; Diabetic Day ; blood donation operations ; and Family Day were just a few of the events that we planned throughout the year to strengthen pride of belonging to the Group and unite teams around shared values. Our employees really like and participate in these events.*

Beyond these employee focused initiatives, our Group has further demonstrated its dedication to long term employment stability by joining forces with the Ministry of Economic Inclusion, Small Business, Employment and Skills, ANAPEC, and the LabelVie Group in a tripartite agreement under the Aurach 2 program. With an anticipated 2 500 new jobs to be created over the next three years, this program will mostly help recent graduates who are having difficulties to find a job or who do not yet have the necessary credentials and qualifications.

Our Group is also committed to promoting the professional integration of people with disabilities.

In partnership with specialized organizations, a number of targeted initiatives have been deployed to facilitate the hiring and integration of 20 people with disabilities by 2023, with a target of 168 recruitments by 2026. To highlight these best practices Handicap International Luxembourg held a conference around the theme of «Inclusion professionnelle ici et ailleurs». (Professional inclusion here and elsewhere)».

Nawal Rommache  
Head of ESG Department

*“In an inclusive approach, Carrefour has taken the initiative of creating the «Silent Factory» in its Temara store.*

Launched on World Autism Day (April 2, 2023), and deployed daily for one hour, the initiative creates a welcoming space specifically designed for hypersensitive people, those with disabilities, or those with autism spectrum disorders, providing a more reassuring experience for light- and sound-sensitive customers.

Because equal opportunity also means gender equality and to commemorate Equal Opportunity Day, the LabelVie Group has developed a digital campaign reaffirming its commitment to the values of equality, justice, and skill valuation.

Internally, these same themes were broadcast to all LabelVie employees through radio programs dedicated to gender equality and fight against gender stereotypes.”.

## *Training professionals, building careers*

**Bouchra Bahsine**  
Head of Training and Partnerships

**“With about 8 500 people, the LabelVie Group is already among Morocco’s largest private employers.”**

However, our recruitment needs are accelerating in line with our expansion. By 2024, we plan to have hired 2 000 additional employees across our whole network.

To attract applicants interested in a career in retail, we regularly attend recruiting fairs hosted by the Kingdom’s numerous schools. In 2023, our group participated in ten recruitment fairs for business and engineering schools.

Joining the LabelVie Group will provide young people with extensive training and excellent professional experience in a vibrant, dynamic and inclusive atmosphere.”

**“To support the development of our multi-format activities, our Group must be able to rely on operational management staff who are skilled in retail.**

**In the absence of any training structure for these professions, in 2008 we created LabelEcole, our own training academy.**

For over 16 years now, LabelEcole has been providing hundreds of training modules for employees, drawing on the business expertise of its 395 in-house trainers.

By 2023, LabelEcole has ramped up again, offering 3 343 training courses grouped into 54 cycles, for 12 172 Group employees.

With the same goal of providing training courses that are relevant to our recruitment needs, we established partnerships with the Kingdom’s leading universities and schools as early as 2015, supporting and enhancing trainees at every stage of their training and closely monitoring their integration in stores or on support perimeters. In 2023, the 272 «university incubators» established through these university partnerships will have a student integration rate of 62%”.

## *Recruitment fairs: attracting talents*

**Jennat Lazrak**  
HR Development Director

## *Salon Moul Hanout: more than ever alongside our grocery partners!*

**Nada Galzim**  
Atacadao Operational Marketing Manager

**“Grocers are the pillars of local commerce in Morocco. Loyal customers of the hypercash chain Atacadao, which offers them wholesale prices at the best conditions, they were invited to take part in the first edition of the «Salon Moul Hanout», organized from July 1 to 23, 2023 at Atacadao in Sale.**

This event further strengthened the special bond between our brand and its network of retailers. We were able to talk to them, listen to their needs, and work together to find solutions. This moment of sharing and appreciation had one objective: to make our ties ever stronger and our partnership ever more fruitful.

With a vast selection of items (over 7 000 SKU’s) and volume discounts, Atacadao has become the go-to partner for more than 1 500 grocers in the Rabat-Sale region.

With its expertise and capacity to address the individual demands of retailers, Atacadao is fully contributing to the vibrancy of Morocco’s convenience retail sector.”

**"Our Group's actions have an unavoidable environmental impact. Every day, each Group entity works to minimize this impact and contribute to the preservation of natural resources.**

The Group has committed to an environmental policy that centers around six specific pledges: responsible use of natural resources, reduction of carbon footprint, integration of circular economy principles, promotion of products from responsible agriculture, fight against food waste, and protection of natural ecosystems. This is all in an effort to limit the Group's ecological footprint.

These commitments are supported by an Environmental Management System, overseen by five multi-disciplinary committees.

To accelerate the reduction of our energy consumption, an extensive audit was carried out at eight pilot sites to identify all possible optimization.

Based on the results of this audit, an action plan has been drawn up, including the installation of an electrical energy management system, the replacement of equipment (motors and transformers), the installation of photovoltaic panels, and raising employee awareness on energy saving and eco-driving. All these projects have been budgeted for and scheduled for deployment in 2024. This year, the Group's various stakeholders will also be invited to express their expectations regarding various environmental issues through a dedicated questionnaire, a process that aims to encourage constructive dialogue around these essential topics."

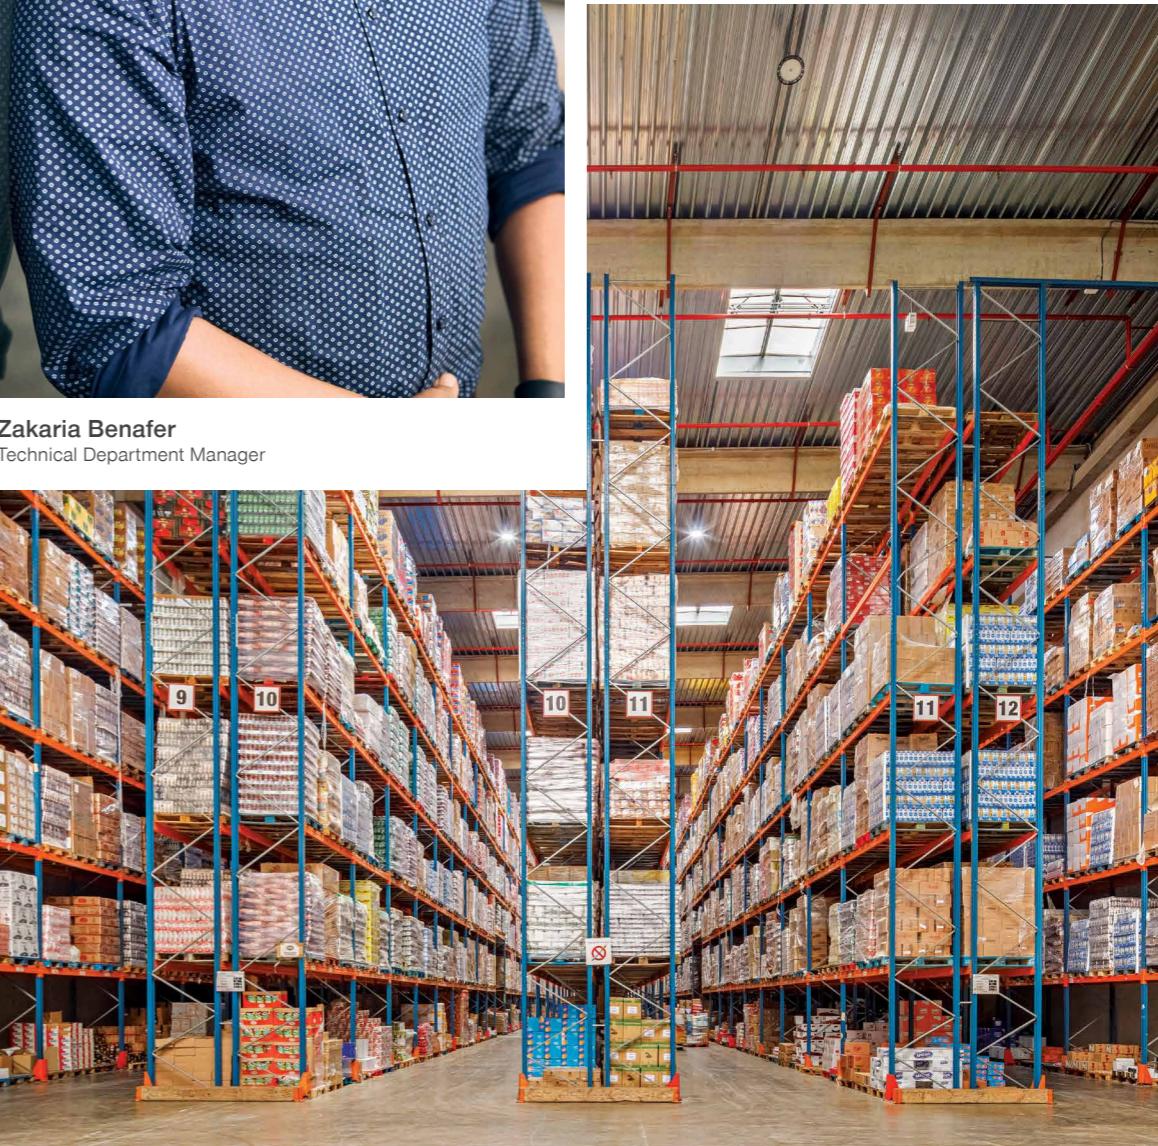

**Zakaria Benafer**  
Technical Department Manager

**"In terms of reducing our carbon footprint, a series of coordinated efforts has already allowed us to cut our CO2 emissions from our logistics platforms by 15%.**

At the end of 2022, we hired a professional firm to conduct an in-depth carbon audit of eight pilot sites. This assessment allowed us not only to quantify each site's direct and indirect emissions, but also to develop an action plan to minimize them.

This action plan has been divided into tangible activities that will be implemented beginning in 2023 and continuing through 2024. This action plan involves prioritizing local items, implementing recycling programs for store garbage, encouraging bulk purchases to decrease individual packaging, adding photovoltaic panels, and continuing to promote employee knowledge of energy savings."

Mohammed Sammama  
Head of Butchery, Fish and Poultry Purchasing Department

**"Committed to collaborating with local producers by promoting the quality of their products, the LabelVie Group unveiled its «LabelVie Quality Line» brand in its Carrefour stores in 2023, the result of several years of reflection, change management, and collaboration."**

This «LabelVie Quality Line» brand is the product of careful collaboration with a select group of partners who have demonstrated a long-term commitment to quality and environmental responsibility. We assist these partners in a variety of complimentary areas (structural, organizational, quality, technological, etc.) and collaborate with them to develop specifications for their infrastructures, health and food monitoring systems, and procedures.

In the case of meat, for example, control of every link in the food chain assures complete traceability and flawless quality, as evidenced by laboratory analysis, audits, quality and veterinary controls, and our partner producers' commitment to providing meat that meets our highest standards.

This quality chain also includes the fishmonger's, traditional, fruit, and vegetable departments."

Salwa Mandour  
Head of Quality Department

**"In the first stage, this «LabelVie Quality Line» brand increases the value of products in the butcher's department by providing customers with exceptionally tender, juicy meat, thanks to the highest quality and traceability standards at every stage of the supply chain."**

To ensure that every link in the food chain is under control, our teams collaborated with our suppliers and came up with a demanding quality management system that establishes standards for animal welfare, feed quality and treatment, working conditions, production, and the frequency of veterinary controls.

Audits are also conducted in a methodical manner to ensure that each of the selected suppliers complies with the standards, based on a precise and quantifiable evaluation of its many components (food safety; traceability; and buildings). When deviations are identified, a corrective action plan is implemented."

## Solidarity in action

Meryem Arbani  
Communications Manager

*“On March 20, 2023, in the run-up to the holy month of Ramadan, the LabelVie Group launched the humanitarian initiative «LabelSolidaire», an initiative that embodies the Group’s values of mutual aid and social responsibility. It was made possible thanks to the involvement of our employee volunteers, who volunteered over 30 hours of their time within the Carrefour hypermarket in Sidi Maârouf to prepare and package food baskets.*

*In partnership with the Tadamoun Al Amal association, these food baskets were then distributed to families in need living in the secluded districts of Zerkten and Immouzer Kandar, who were appreciative for this act of solidarity in the run-up to Ramadan.*

*In September 2023, the Group expressed its solidarity with the families that suffered the most as a result of the Al Haouz earthquake. Building on the momentum of national solidarity created by this calamity, the LabelVie Group has decided to mobilize its resources and energies to aid in relief and rehabilitation efforts.*

*LabelVie Group gave 25 million dirhams to the earthquake Impact Management Fund («Fonds de gestion des effets du séisme»). This Fund, which is managed by the Kingdom's highest authorities, has enabled the centralization of all support and reconstruction efforts in an efficient and coordinated manner.*

*In addition to this financial contribution, the LabelVie Group provided significant material help, distributing approximately 500 tons of food goods to the afflicted villages in the days following the earthquake.*

*In these exceptionally tough times, national solidarity served as our compass. In an incredible display of unity, our Group and its workers rallied to assist the victims and contribute to the national reconstruction effort.”*

# Financial Analysis

Key performance indicators.  
Presentation of LabelVie 2023 Group .  
Balance Sheet.

The Board of Directors of LabelVie S.A., chaired by Mr. Rachid Hadni, met on Wednesday February 28, 2024 at the company's administrative headquarters to approve the Group's statutory financial statements for the year ended December 31, 2023.

Despite an unfavorable macroeconomic context marked by high inflation and pressure on household purchasing power, the LabelVie Group recorded a 13% increase in sales to MAD 15.8 billion. This increase was driven by all the Group's business formats, with a 16% rise for the "Supermarket" format, 15% for the "Hypercash" format and 7% for the "Hypermarket" format.

In 2023, the LabelVie Group also pursued its strategy of expansion and continuous improvement in operating efficiency. It has:

- Inaugurated 24 new stores, strengthening its presence in historic cities and extending its network to 3 new towns.
- Launched its franchise program, aimed at accelerating its expansion, while promoting entrepreneurship in Morocco.
- Generalized its "Club Carrefour" loyalty program, launched at the beginning of the year with great success.

LabelVie's EBITDA improved by 9% in 2023 compared with 2022, to MAD 1.3 billion. This performance is mainly due to:

- A successful sales policy that has enabled a significant increase in footfall and sales volumes, while mitigating the effects of inflation on customers' purchasing power. Investment in inflation control measures in 2023 reached MAD 250 million.
- Good control of expense levels (the ratio of expenses to sales is 13.2% vs 13% in 2022).

Net income for the year came to MAD 524 million, compared with MAD 762 million for the previous year. Reminding that 2022 was marked by the realization of exceptional capital gains.

The financial analysis of the Group's financial statements will cover operating and financial performance, as well as the financial equilibrium.

## 1. Sales performance

Revenue trends between 2022 and 2023 are highlighted below:

### REVENUE

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	Amount	% Sales	Amount	% Sales	Amount	%
Product sales (EXCL. VAT)	12.567.295		14.152.146		1.584.851	12,6%
Sales of services	1.379.527	11,0%	1.647.728	11,6%	268.201	19,4%
<b>REVENUE (EXCL. VAT)</b>	<b>13.946.822</b>		<b>15.799.874</b>		<b>1.853.052</b>	<b>13,3%</b>

LabelVie Group sales consist mainly of:

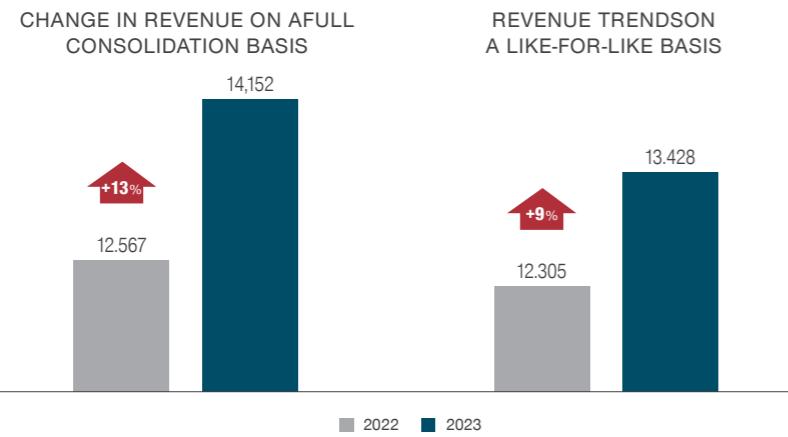

- Sales of unprocessed goods by the various stores.
- Sales of services, including the back margin on goods purchases, space rental within stores, entrance fees and rental income from shopping malls.

### 1.1 Performance of product sales

#### 1.1.1 Revenue performance by scope

- Like-for-like revenue up 9% to MAD 1,133 million;
- Overall revenue growth of 13%, driven by additional volumes of MAD 452 million from the 2022 and 2023 openings, which accounted for 29% of sales growth.

The graph below illustrates sales trends by perimeter:

The graph below illustrates the contribution of existing and new stores to revenue growth:

Stores opening in 2022 and 2023 contribute 29% to sales growth.

#### 1.1.2 Revenue by effect:

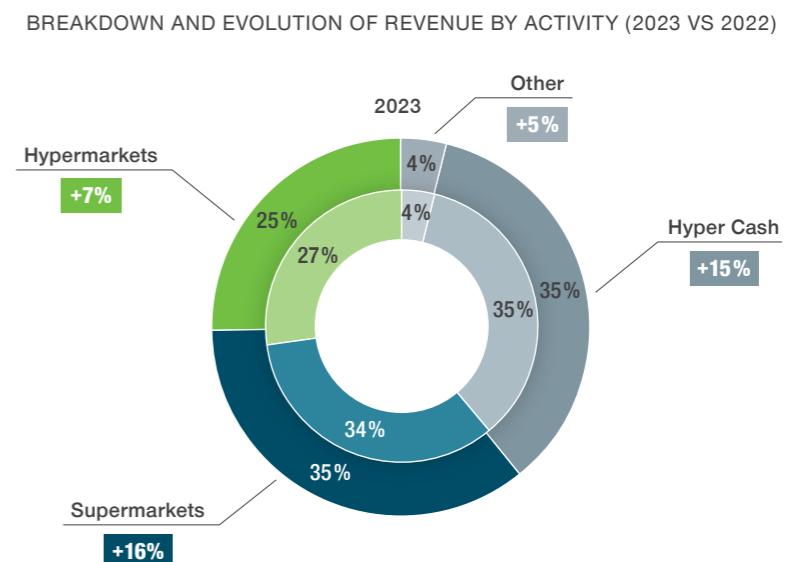

The graph shows revenue analysis by effect

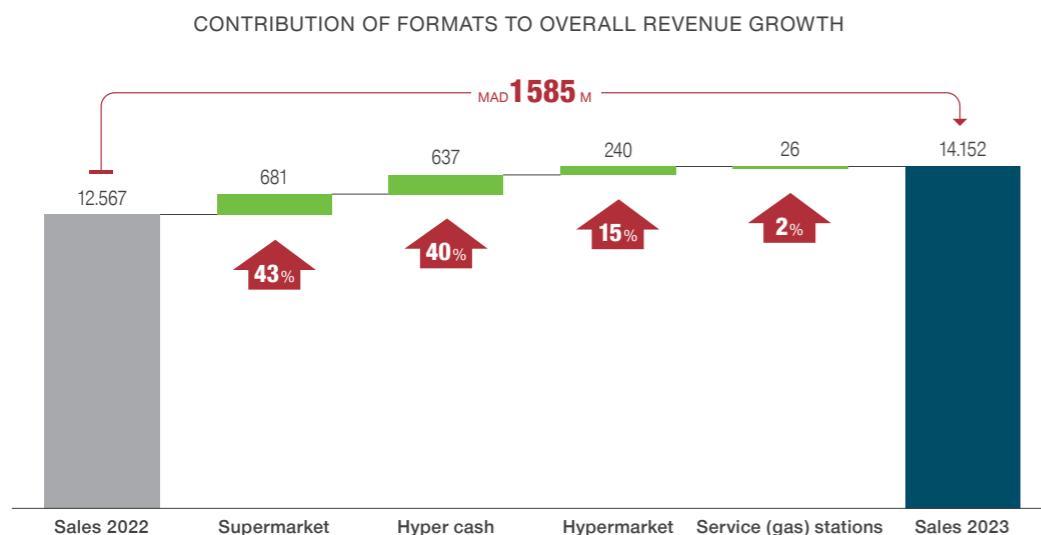

35% of growth came from higher sales volumes, despite a troubled environment. This growth was driven mainly by the hypercash segment, which strengthened its position in the traditional channel and maintained volume growth throughout the year.

#### 1.1.3 Revenue by segment:

The graph below shows the breakdown of merchandise sales by segment:

The graph below illustrates the contribution of each segment to overall revenue:

More than 80% of 2023 sales growth came from the Hypercash and Supermarkets segments, with MAD 1.3 billion driven mainly by the outperformance of the Atacadão concept, which offers low prices in an inflationary context.

### (A) HYPERCASH SEGMENT SALES PERFORMANCE

SALES EVOLUTION		HISTORICAL 2022	ACTUAL 2023	VARIANCE VS HISTORICAL 2022
			Value	%
Comparable scope		4,246,291	4,814,458	568,167 13,4%
Openings 2022		107,885	177,143	69,259 64,2%
Openings 2023		-	-	0 NA
<b>HYPER CASH</b>		<b>4,354,175</b>	<b>4,991,601</b>	<b>637,426 15%</b>

The segment took advantage of the inflationary context to strengthen its position as the preferred supplier to the traditional channel, with a more competitive offer and prices, enabling it to record sales volume growth of +15%.

In value terms, the increase in sales volume in 2023 is MAD 637 million compared with 2022, with an exceptional performance on a like-for-like basis, i.e. MAD 568 million more in volume and a 13.4% increase.

The new outlet opening in 2022 also contributed MAD 69 million, recording growth of 64% and contributing 11% to overall sales growth.

Hyper-cash segment sales thus represent 35% of total LabelVie Group sales.

By the end of 2023, the segment will have 13 outlets with 65,714 m<sup>2</sup> of sales area and 7 million transactions.

### (B) SUPERMARKET SEGMENT SALES PERFORMANCE

SALES EVOLUTION	HISTORICAL 2022	ACTUAL 2023	VARIANCE VS HISTORICAL 2022

Taking advantage of customer proximity, the supermarket segment was strengthened by the opening of 24 new Carrefour stores, including 11 Carrefour Express, 9 Carrefour Market and 4 Supeco, driving sales growth of 16% year-on-year. In terms of value, the increase in sales volume in 2023 is 681 million dirhams compared with 2022, with like-for-like sales contributing 298 million dirhams or 7% growth.

New openings in the segment accounted for 56% of sales growth, with additional volumes of MAD 382 million. Segment sales thus accounted for 35% of total LabelVie Group sales.

By the end of 2023, the supermarket segment will total 135 outlets and 123,853 m<sup>2</sup> of sales area, with 43 million transactions.

### (C) HYPERMARKET SEGMENT SALES PERFORMANCE

SALES EVOLUTION		HISTORICAL 2022	ACTUAL 2023	VARIANCE VS HISTORICAL 2022

Openings 2023		-	-	- NA
<b>HYPERMARKETS</b>		<b>3,351,217</b>	<b>3,591,311</b>	<b>240,094 7%</b>

The "Carrefour" hypermarket segment recorded an increase of +7.2% compared with 2022. This trend was driven exclusively by the increase in sales achieved by the comparable perimeter, i.e. MAD +240 million in value.

The inflationary context has encouraged customers to split up their purchases and focus on local stores, which has put this segment at a disadvantage, with growth falling short of the Group's like-for-like growth. The "Carrefour" hypermarket segment comprises 12 outlets in 10 towns, with a total surface area of 65,900 m<sup>2</sup> at December 31, 2023. It represents 25% of the LabelVie Group's total sales at the end of 2023.

## 1.2 Performance of service sales

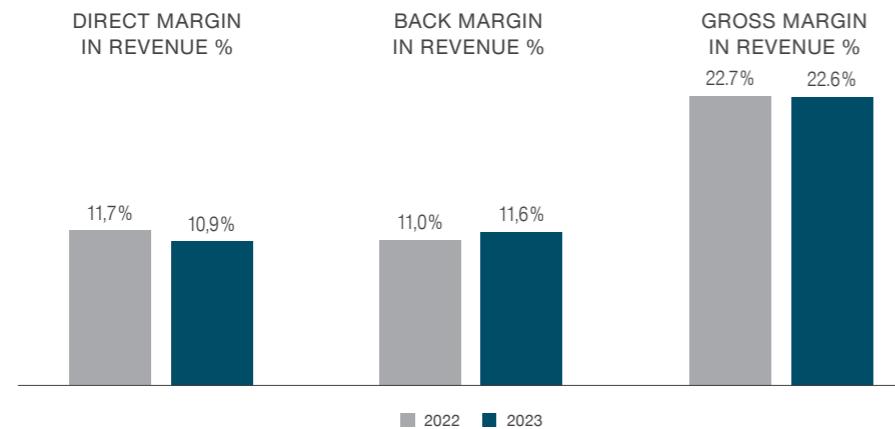

The evolution in sales of services in 2023 compared with 2022 is as follows:

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	Amount	% Sales	Amount	% Sales	Amount	%
<b>SALES OF SERVICES</b>	<b>1.379.527</b>	<b>11,0%</b>	<b>1.647.728</b>	<b>11,6%</b>	<b>268.201</b>	<b>19,44%</b>

Sales of services rose by 19.4% between 2022 and 2023, i.e. an additional value of MAD 268 million (+0.7pts), benefiting mainly from the significant increase in volumes and the impact of the digital transformation project initiated in 2022.

## 2. Margin performance

The graph below illustrates the evolution of the Group's gross margin in 2023 compared with 2022:

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	Amount	% Sales	Amount	% Sales	Amount	%

Gross margin is the difference between sales and resold purchases of merchandise, which for 2023 amounted to MAD 3,192 million, up 12% on 2022. It comprises:

- Direct margin (difference between sales and resold purchases of goods), which will amount to MAD 1,544 million in 2023 (+5.1% vs 2022).
- And sales of services, which stood at MAD 1,648 million in 2023 (+19.4% vs 2022).

In value terms, gross margin rose by 343 million dirhams, thanks to volumes achieved as a result of an aggressive sales policy and measures to mitigate inflation involving investment in prices. The back margin accounted for 78% of gross margin growth, i.e. 268 million dirhams, compared with a direct margin of only 22%, i.e. 74 million dirhams.

In terms of ratio to sales, the gross margin ratio declined slightly between 2023 and 2022, i.e. -0.1 bps, while the back margin ratio improved by +0.6bps from 11% to 11.6%, benefiting from volumes and the digital transformation project. The direct margin ratio, on the other hand, fell by 0.8bps, mainly due to the Group's investment in measures to reduce inflation and the impact of the margin mix following the increased contribution of Hypercash segment volumes.

## 3. Operating expenses

Consolidated operating expenses in 2023 compared with 2022 are as follows:

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	Amount	% Sales	Amount	% Sales	Amount	%
Purchases of materials and supplies	263.681	2,1%	309.960	2,2%	46.279	17,6%

<b>TOTAL OPERATING EXPENSES</b>	<b>2.096.862</b>	<b>16,7%</b>	<b>2.397.533</b>	<b>16,9%</b>	<b>300.671</b>	<b>14,3%</b>

Operating expenses rose by 14.3% between 2022 and 2023, representing an additional value of MAD 301 million. In terms of ratio to sales, expenses increased slightly from 16.7% to 16.9%. The slight deterioration in the ratio is attributable to the ratio of other external expenses, which fell by 0.2bps from 6.2% to 6.4%, an increase of 16.2%.

### 3.1 Purchases of materials and supplies

The consumed purchases of materials and supplies mainly consist of:

- Purchases of materials and consumables, mainly packaging bags and trays made available to customers for their purchases of fruit & vegetables, cheese & deli cuts.
- Non-stock purchases of materials and supplies, mainly water and electricity.
- Purchases of works, studies and services, in particular archiving, cash-in-transit, surveillance and guarding services.

Purchases of materials and supplies rose by MAD 46 million, from MAD 264 million in 2022 to MAD 310 million in 2023. This increase is due to:

- The opening of new stores between 2022 and 2023.
- Increased business volumes.

The ratio of this item to sales remained stable at its 2022 level of 2%.

This stability is the result of the Group's optimization of costs in order to generate savings in a situation where raw material prices have risen exceptionally during 2023.

### 3.2 Other external expenses

The breakdown of consolidated "Other external expenses" is as follows:

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	Amount	% Sales	Amount	% Sales	Amount	%
Rental and leasing	299.557	2,4%	389.526	2,8%	89.969	30,0%
Maintenance, repair and transport	179.711	1,4%	198.324	1,4%	18.613	10,4%

Other	145.312	1,2%	146.701	1,0%	1.389	1,0%
<b>TOTAL OTHER EXTERNAL EXPENSES</b>	<b>774.701</b>	<b>6,2%</b>	<b>900.326</b>	<b>6,4%</b>	<b>125.626</b>	<b>16,2%</b>

Other external expenses, which mainly include rental and leasing costs, maintenance, repairs, transport, as well as travel and marketing expenses, saw a significant increase (+HM126) of 16.2% in 2023 compared with 2022. This increase is mainly attributable to "rental and leasing", which rose by MAD90 million, or 72% of the total increase in "other external expenses".

The ratio of other external expenses to sales has risen slightly, from 6.2% to 6.4% in 2023, an increase of 0.2 pts. This increase is explained in particular by the weight of "rent and leasing", which has risen from 2.4% to 2.8% between 2022 and 2023.

The evolution in "Other external expenses" breaks down as follows:

- Rental and leasing: This expense item has risen by MAD 90 million, or 30%, compared with its level in 2022, to MAD 390 million in 2023. This increase is explained by the new lease and leasing contracts relating to the opening of new sales outlets between 2022 and 2023. As a proportion of sales, the weighting of "rental and leasing" rose by 0.4 bps, mainly due to additional rental income from assets transferred to OPCI Terramis in June 2022.

- Maintenance, repair and transport: This item increased by MAD 19 million, or 10.4%. The ratio of these costs to sales remained constant at 1.4%, despite the inflationary context.
- Travel and marketing: Expenditure on this item rose by 11% to MAD 16 million. The weight of this item in relation to sales remained stable at 1.2% between 2022 and 2023.
- Other: Typically includes telecommunication, insurance and franchise expenses. The amount increased slightly from MAD 145 million in 2022 to MAD 147 million in 2023. Relative to sales, the weight of this item has fallen by 0.2 bps, benefiting from economies of scale following the increase in business volumes in 2023.

### 3.3 Taxes

"Taxes" rose by MAD 14 million in value, an increase of 18%. As a ratio, the weight of the "Taxes" item rose slightly by 0.1 bps, from 0.6% to 0.7% between 2022 and 2023, mainly due to the end of the five-year business tax exemption period.

### 3.4 Personnel expenses

AMOUNTS IN KMAD	ACHIEVED 2022			ACHIEVED 2023			EVOLUTION	
	Amount	Weight	% Sales	Amount	Weight	% Sales	Amount	%
Gross wages	436.911	84%	3,5%	484.804	86%	3,4%	47.893	11,0%

Total personnel costs will rise from MAD 516 million in 2022 to MAD 564 million in 2023, representing an increase in value of 48.2 MDHS (+9.3%), mainly due to additional payroll costs linked to recruitment for the opening of new sales outlets.

As a proportion of Group sales, the weight of payroll has fallen by 0.1 bps from 4.1% to 4% between 2022 and 2023.

## 4. EBITDA

EBITDA reached MAD 1,325 million in 2023.

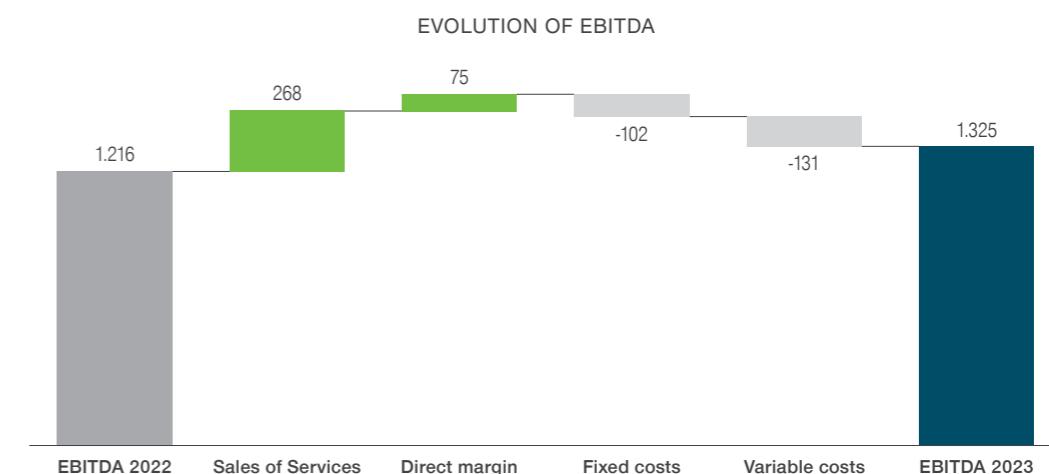

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	Amount	% Sales	Amount	% Sales	Amount	% Sales

<b>GROSS OPERATING INCOME</b>	<b>1.215.921</b>	<b>9,7%</b>	<b>1.325.005</b>	<b>9,4%</b>	<b>109.084</b>	<b>9,0%</b>

EBITDA was up 9% on its 2022 level, at MAD 1.325 billion. This performance was mainly due to:

- A successful sales policy that has enabled a significant increase in footfall and sales volumes, while mitigating the effects of inflation on customers' purchasing power.
- Continued control of expenses.

The EBITDA ratio fell by 0.4bps, mainly due to the Group's investment in measures to reduce inflation and the impact of the mix of margins following the increased contribution of Hyper-cash segment volumes.

The graph below illustrates the evolution of EBITDA from 2022 to 2023:

## 5. Operating allowances

Operating allowances were up 14.3% on the previous year, representing an increase in value terms of MAD 66.6 million. In ratio, the weighting of this item in relation to sales remained virtually stable at 3.7% between 2022 and 2023.

This increase is mainly due to additional allocations resulting from:

- New investments.
- Start-up costs incurred by opening new sites and renovating old stores.

## 6. EBIT

The LabelVie Group's operating income was as follows:

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	Amount	% Sales	Amount	% Sales	Amount	%
<b>EBIT</b>	<b>751.840</b>	<b>6,0%</b>	<b>794.364</b>	<b>5,6%</b>	<b>42.524</b>	<b>5,7%</b>

Operating income rose by 5.7%, from MAD 752 million in 2021 to MAD 794 million in 2023, representing an additional MAD 42.5 million. As a ratio of sales, operating income fell slightly by 0.4 bps.

## 7. Financial result

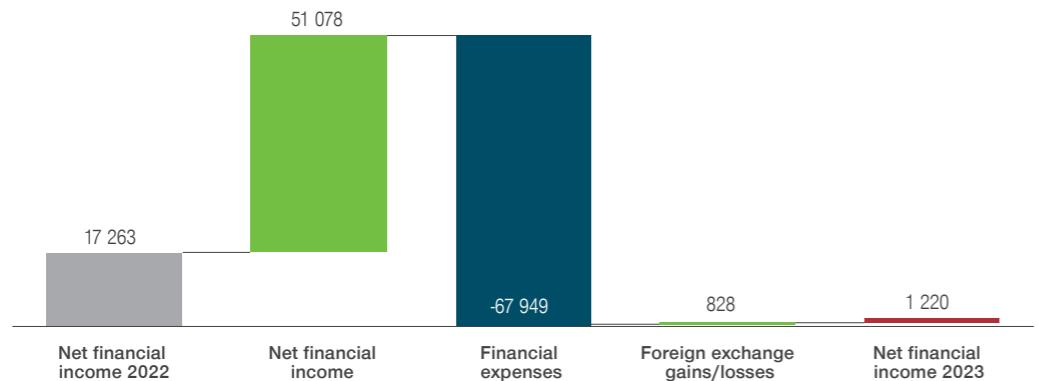

Net financial income was positive for the third year running, at MAD 1.2 million, despite an investment of MAD 1,218 billion and a new bond issue of MAD 1,000 million at the beginning of 2023.

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION

The decrease in net financial income of MAD 16 million compared with 2022 is mainly due to:

- 67 million increase in financial expenses following additional bond and bank financing;
- 51 million increase in income and investment income, mainly from dividends received, including those from the Terram OPCI created in 2022. The graph below illustrates the evolution in consolidated net financial income between 2022 and 2023.

## CONSOLIDATED NET FINANCIAL INCOME

### 8. Income from ordinary activities, exceptional income and net income

The table below details the evolution between 2022 and 2023 of the following items:

- Current income • Exceptional income • Net income

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION

#### Current result

Income from ordinary activities rose from MAD 769 million in 2022 to MAD 796 million in 2023, an increase of MAD 26.5 million in value. The ratio of income from ordinary activities to sales fell slightly by 0.5 bps.

Growth of 3.44% or MAD 26.5 million compared with the previous year is explained by:

- Gross margin up 12% to MAD 343 million
- 234 million increase in operating expenses
- The increase in operating allowances and MAD 66 million
- Net financial income down MAD 16 million

#### Exceptional Income

Exceptional income fell by MAD 245 million from its 2022 level to MAD 49 million in 2023, compared with MAD 196 million in 2022. This decrease is mainly due to the exceptional capital gains of MAD 245 million realized on the contribution of real estate assets to OPCI Terramis in 2022, which were renewed for only MAD 34 million in 2023.

Exceptional expenses consist mainly of:

- The contribution of MAD 25 million to the fund for managing the effects of the earthquake and the distribution of 500 tons of food products, for a total of MAD 29 million in donations.
- A contribution to social cohesion worth MAD 31 million.
- The amortization of the donation made to the COVID 19 Fund for an amount of MAD 10 million.

The Group also realized a capital gain of MAD 34 million in 2023 following the sale of the Salé retail park for a total price of MAD 141 million.

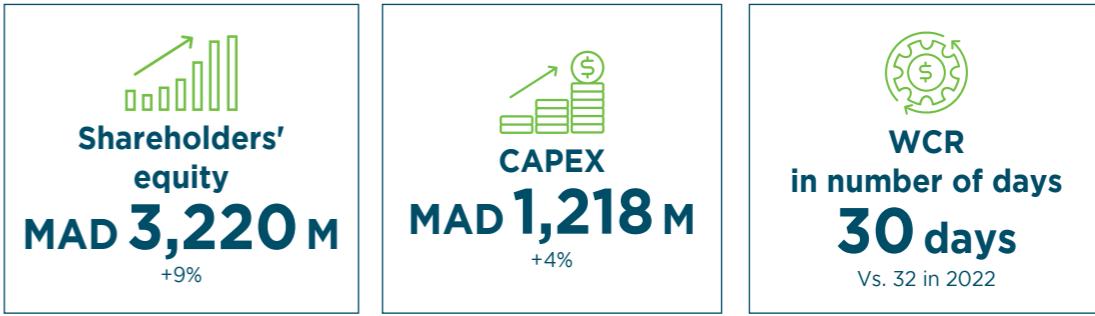

#### Net income

Net income will come in at MAD 524 million in 2023, down on the previous year, impacted mainly by Exceptional income, down significantly in 2023 compared with 2022.

Net income fell by 31.3% year-on-year to MAD 524 million. In ratio, net income represents 3.7% of sales in 2023, down -2.4 points on 2022.

By the end of 2023, the Group had maintained its commitment to capital expenditure, with a total budget of MAD 1.2 billion. These investments mainly concern:

- opening 24 new stores in 2023 and the preparation of future openings
- enlarging surface areas and increasing platform storage capacities
- the digital transformation program for key processes, with the aim of improving operational excellence and strengthening performance management.

Although LabelVie has maintained a steady pace of investment to support its development strategy, its level of debt remains under control at MAD 3.6 billion. This financial stability reflects the Group's prudent management of resources.

## 1. Fixed assets

Below are the evolution in consolidated fixed assets in 2023 compared with 2022:

AMOUNTS IN KMAD	HISTORICAL 2022		ACHIEVED 2023		EVOLUTION

### Fixed assets written off

These assets consist mainly of the following deferred charges:

- Expenses related to real estate and financial acquisitions
- Costs of bonds and bank borrowings
- Costs associated with renovations and new store openings

These assets recorded a net increase of 3%, i.e. an amount of MAD 35 million, net of the withdrawal of fully depreciated fixed assets.

## Intangible assets

Intangible assets mainly include goodwill and computer licenses. These assets will continue to account for 6% of total assets in 2023. Their value has risen by MAD 154 million, from MAD 645 million in 2022 to MAD 799 million in 2023, an increase of 24% compared with 2022. This development reflects the continuity of the digital transformation process initiated by the Group in 2022.

## Property, plant and equipment

The table below shows property, plant and equipment:

AMOUNTS IN KMAD	HISTORICAL 2022		ACHIEVED 2023		EVOLUTION	
	VAL	% Total	VAL	% Total	VAL	%
Land	480,675	11%	475,331	10%	-5,344	-1,1%

Property, plant and equipment grew by a significant 14%, or MAD 578 million between 2022 and 2023. This increase is attributable to:

- 360 million in buildings, technical installations and fittings for new stores opened during the year.
- 223 million in fixed assets under construction relating to stores currently being fitted out and due to open in 2024.

## Long-term investments

At the end of 2023, a review of long-term investments shows a 6% increase, or MAD 137 million, compared with the previous year, from MAD 2,248 million in 2022 to MAD 2,385 million in 2023. This increase is explained by various minor financial holdings.

## 2. Current assets

### a. Stocks

- Inventories of goods and consumables rose by MAD 143.5 million from 2022 to 2023, reaching MAD 2,489 million in 2023, up 6% on the previous year. This increase is mainly due to additional inventories following the opening of new stores and higher business volumes.  
In terms of sales days, however, merchandise inventory fell from 68 days to 65 days.
- This inventory has risen by MAD 138 million, from MAD 107 million in 2022 to MAD 245 million in 2023, in line with the Group's strategy of securing its development.

### b. Current assets

The Group's consolidated current assets for 2023 are as follows:

AMOUNTS IN KMAD	HISTORICAL 2022		ACHIEVED 2023		EVOLUTION	
	VAL	% Total assets	VAL	% Total assets	VAL	%
Customer	726,008	6%	674,690	5,1%	-51,318	-7%

Current assets grew by 7%, increasing by MAD 126 million to reach MAD 1,921 million in 2023, compared with MAD 1,794 million the previous year.

The main evolution in current receivables were as follows:

- Trade receivables fell by MAD 51 million, representing a reduction of 7%. This item comprises receivables from the sale of goods (account receivables) which, at the end of the year, represented 23% of this item, and receivables from the sale of products and services (back margin and other services) which, for their part, represented 77% of the item.
- Advances to suppliers rose by MAD 8 million, or 4%. It should be noted that this line item also includes advances on investment orders relating to projects in progress.

- The Personnel account has seen an increase of MAD 6 million in value, or 41% compared with 2022. It has risen from MAD 14 million in 2022 to MAD 20 million in 2023.
- The item corresponding to the State shows a fall of MAD 29 million, or 4% less than in 2022, correlated with the reduction in supplier payment times.
- Other receivables rose by a remarkable MAD 192 million, representing a significant increase of 127% compared with the previous year. This increase is mainly due to the sale of assets (Retail Park Salé, Agadir and Oujda platform, route de Taza) to Terramis, which are in the process of being monetised.

#### c. Cash and investments

Cash and investments in 2023 compared with 2022 are shown below:

AMOUNTS IN KMAD	HISTORICAL 2022		ACHIEVED 2023		EVOLUTION	
	VAL	% Total assets	VAL	% Total assets	VAL	%

Group cash and cash equivalents, including investments, amounted to MAD 1,204 million in 2023. The positive evolution of MAD 402 million, equivalent to an increase of 50%, results mainly from:

- Increase in working capital of: MAD 576 million
- The decrease in working capital surplus of: MAD 174 million

Investments at the end of 2023 fell by MAD 237 million to MAD 178 million, a decrease of 25%, mainly due to the repurchase by the Swiss subsidiary of an investment of MAD 61 million.

Cash flow will rise from MAD 565 million in 2022 to MAD 1,026 million in 2023, representing a significant increase of 81%.

The table below details cash flow trends between 2022 and 2023:

#### d. Permanent financing

The Group's "permanent financing" item at 12/31/2023 breaks down as follows:

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	VAL	% Total Liabilities	VAL	% Total Liabilities	VAL	%
SHAREHOLDER'S EQUITY	2.953.855	25%	3.229.464	25%	275.609	9%

FINANCING LIABILITIES	6.786.484	59%	8.082.820	62%	1.296.336	19%

Permanent financing grew by 19%, increasing by MAD 1,296 million to reach MAD 8,083 million in 2023, compared with MAD 6,786 million in 2022. This increase is mainly due to:

- Shareholders' equity** rose from MAD 2,954 million in 2022 to MAD 3,229 million in 2023, an increase of MAD 276 million due mainly to:
  - Group net income of MAD 524 million
  - Dividends distributed in 2023 of MAD 250 million
- Financing liabilities** increased by a net MAD 1,021 million in 2023 compared with 2022, mainly as a result of a MAD 1 billion bond issue.

#### e. Current liabilities

At the end of 2023, the LabelVie Group's current liabilities are as follows:

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	VAL	% Total	VAL	% Total	VAL	%
Trade payables	4.382.040	91%	4.639.076	92%	257.036	6%

The Group's current liabilities increased by MAD 234 million, from MAD 4,811 million in 2022 to MAD 5,044 million in 2023, mainly due to a MAD 257 million increase in payables to suppliers, from MAD 4,382 million to MAD 4,639 million. This increase in payables to suppliers is due to:

- the considerable increase in business volumes;
- the high level of capital expenditure, particularly at the end of the year.

In days of purchases, supplier outstandings net of financing outstandings and receivables relating to matured back margin fell by 4 days compared with their 2022 level, from 73 days to 69 days of purchases, continuing the impact of projects initiated in 2020 aimed at strengthening partnerships with suppliers.

- Other debts of MAD 74 million, up 128%.

Amounts due to the State fell by MAD 97 million, or 29%.

LabelVie's trade payables (statutory financial statements) are as follows:

DEBTS TABLE (STATUTORY FINANCIAL STATEMENTS)	(A)	(B)	(C)	(D)	(E)	(F)

## III. Analysis of key ratios

We will examine the LabelVie Group's key financial indicators, including those relating to performance, liquidity, profitability and indebtedness.

### 1. Performance ratio

The table below details the evolution of the performance ratio in 2023:

AMOUNTS IN KMAD	ACHIEVED 2022		ACHIEVED 2023		EVOLUTION	
	ACHIEVED 2022	Variation	ACHIEVED 2023	Variation	EVOLUTION	%
VALUE-ADDED RATE (1)	12,7%	-	12,2%	-0,5		
Added value	1.764.705		1.926.150		161.445	9,1%
Sales figures	13.946.822		15.799.874		1.853.052	13,3%
COEFFICIENT OF EFFICIENCY OF SALARIED LABOR (2)	3,4		3,4	0		
Personnel expenses	516.161		564.421		48.260	9,3%
EBIT MARGIN (3)	8,7%		8,4%	-0,3		
Gross operating surplus	1.215.921		1.325.005		109.084	9,0%
EBITDA MARGIN (4)	5,4%		5%	-0,4		
Operating income	751.840		794.364		42.524	5,7%

### a) Value added tax

Value Added Tax is determined by the ratio of "Value Added" to "Sales".

Value-added tax fell slightly by 0.5 points. This slight drop is due to a faster increase in sales, which stood at 13.3%, compared with the evolution of value added, which improved by only 9.1%. The latter rose by MAD 161 million, from MAD 1,764 million in 2022 to MAD 1,926 million in 2023, reflecting the Group's continued commercial policy of supporting its customers' purchasing power in an inflationary environment.

### b) Coefficient of return on salaried work

The coefficient of return (or efficiency) on salaried labor corresponds to the ratio of "Value Added" to "Personnel Expenses", and measures the wealth created for each dirham of payroll spent.

This ratio stabilized at 3.4 during 2022 and 2023, indicating that the efficiency of salaried labor was maintained. The 9.2% rise in personnel costs remained correlated with the 9.1% rise in value added.

### c) Operating margins

Operating margin is the ratio of operating income to sales.

Operating margin is the ratio of EBITDA to sales.

Operating margin fell slightly, from 8.7% in 2022 to 8.4% in 2023, a decline of 0.3 bps reflecting the Group's investment in supporting its customers' purchasing power in a mixed economic climate. Operating margin fell by 0.4 points, from 5.4% to 5%.

## 2. Liquidity ratio

Below are the tables detailing the liquidity indicators for 2023:

### 2.1 Working capital surplus

WCR COMPONENTS	ACHIEVED 2022	Number of days / sales	ACHIEVED 2023	Number of days / sales	EVOLUTION	Number of days / sales

<b>EFR</b>	<b>563,170</b>	16	<b>388,902</b>	10	<b>-174,268</b>	-6

#### a) WCS (Working Capital Surplus)

Working capital surplus has been reduced by 6 days' sales between 2022 and 2023, representing a value of MAD 174 million.

#### b) Inventory turnaround time

Inventory increased in value from MAD 2,453 million in 2022 to MAD 2,735 million in 2023, while the inventory turnover time for merchandise rose from 68 days in 2022 to 64 days in 2023. Inventories of consumables fell from 1 day to 0.4 days, reflecting good stock rotation of merchandise and consumables.

#### c) Receivables / Payables

Receivables and payables have seen a reduction in the number of days sales from 103 to 100 days sales in 2023 due to the Group's ESG policy towards its suppliers, reducing the payment period to the most cash-vulnerable suppliers..

#### d) Other current assets

"Other current assets" increased from -16 to -19 days' sales, mainly due to other receivables. at the end of the year.

### 2.2 Liquidity indicators

LIQUIDITY INDICATORS	ACHIEVED 2022	ACHIEVED 2023	VARIATION
Current ratio	1	1,2	11%
Reduced liquidity ratio	0,5	0,6	15%
Immediate liquidity ratio	0,12	0,2	73%

- **General Liquidity Ratio:** Measures the company's capacity to repay short-term debts using all available assets, including inventories, receivables, investments, and cash. The value increased by 11% from 1 in 2022 to 1.2 in 2023. The Group now has 20% more resources to cover each unit's present liabilities.

- **Reduced Liquidity Ratio:** Evaluates the company's ability to repay its short-term debts without having to sell its inventories. This ratio rose from 0.5 to 0.6, an increase of 15%. This suggests the Group's increased ability to settle its short-term debts without relying on the liquidation of inventories.

- **Immediate Liquidity Ratio:** Measures a company's ability to cover its short-term debts solely with cash. It has risen considerably, from 0.12 to 0.2, an increase of 73%. The company has substantially strengthened its ability to repay short-term debts immediately, relying solely on its liquid assets.

## 3. Profitability ratio

Table summarizing the Group's ROA and ROE for 2022 and 2023:

AMOUNTS AS % OF	ACHIEVED 2022	ACHIEVED 2023	EVOLUTION
Return on equity (ROE)	26%	16,2%	-9,73%
Return on Asset (ROA)	6,3%	4%	-2,35%
Net profitability	5,5%	3,3%	-0,02%

#### a) Return on equity (ROE)

This is the ratio of net income to shareholders' equity. In 2023, ROE has fallen from 26% to 16%, as a result of the drop in Income due to the non-recurrence of exceptional items in Exceptional income from 2022 to 2023.

#### b) Return on asset (ROA)

Economic profitability is the ratio of net income to total assets. ROA fell from 6.34% in 2022 to 4% in 2023. This reduction of -2.35 points is due to the Group's accelerated development through medium- to long-term investment, while net income fell in 2023.

#### c) Net profitability

Net profitability represents the ratio of net income to sales. The latter has fallen from 5.5% in 2022 to 3.3% in 2023, generating a decrease of 2% on the previous year, mainly due to the decline in net income between 2022 and 2023.

## 4. Debt-to-equity ratio

Table showing the Group's long-term debt for 2023 compared with 2022:

AMOUNTS IN KMAD	ACHIEVED 2022	ACHIEVED 2023	EVOLUTION	%

<b>NET DEBT / EBITDAR</b>	<b>2,03</b>	<b>2,15</b>	<b>0,12</b>	<b>6%</b>

Net debt rose from MAD 3,030 million in 2022 to MAD 3,650 million in 2023, an increase of 20% on the previous year. The net debt-to-equity ratio increased by 2.5 points from 50.6% to 53.1%, following the anticipation of bond financing in a context of lack of liquidity during 2023.

The ratio of net debt to EBITDAR increased slightly from 2.03 in 2022 to 2.15 in 2023, indicating growth of 6%, or +0.12 pts.

It should be noted that in 2023, the Group repaid MAD 432 million in debt.

## 5. Appropriation of profit

LabelVie's financial statements for the year ended December 31, 2023, as approved by the Board of Directors, show a net income of MAD 161 million. The Board of Directors proposes to the AGM the below allocation of the profit:

NET INCOME 2023		AMOUNT

**AUDIT DES ETATS DE SYNTHESE**

**Opinion**

Nous avons effectué l'audit des états de synthèse consolidés de la société Label 'Vie et de ses filiales (le « Groupe »), qui comprennent bilan consolidé, le compte de produits et charges consolidé, l'état des soldes de gestion consolidé, le tableau consolidé des flux de trésorerie, le tableau consolidé de variation des capitaux propres et l'état des informations complémentaires (ETIC) relatifs à l'exercice clos le 31 décembre 2023. Ces états de synthèse consolidés font ressortir un montant de capitaux propres consolidés de **KMAD 3 219 910** dont un bénéfice net consolidé de **KMAD 523 797**.

Nous certifions que les états de synthèse consolidés cités au premier paragraphe ci-dessus, sont réguliers et sincères et donnent dans tous leurs aspects significatifs, une image fidèle du patrimoine et de la situation financière du groupe au 31 décembre 2023, ainsi que du résultat de l'ensemble consolidé pour l'exercice clos à cette date, conformément au référentiel comptable en vigueur au Maroc.

**Fondement de l'opinion**

Nous avons effectué notre audit selon les Normes de la Profession au Maroc. Les responsabilités qui nous incombent en vertu de ces normes sont plus amplement décrites dans la section « Responsabilités de l'auditeur à l'égard de l'audit des états de synthèse consolidés » du présent rapport. Nous sommes indépendants du groupe conformément aux règles de déontologie qui s'appliquent à l'audit des états de synthèse au Maroc et nous nous sommes acquittés des autres responsabilités déontologiques qui nous incombent selon ces règles. Nous estimons que les éléments probants que nous avons obtenus sont suffisants et appropriés pour fonder notre opinion d'audit.

**Questions clés de l'audit**

Les questions clés de l'audit sont les questions qui, selon notre jugement professionnel, ont été les plus importantes dans l'audit des états de synthèse consolidés de la période considérée. Ces questions ont été traitées dans le contexte de notre audit des états de synthèse consolidés pris dans leur ensemble et aux fins de la formation de notre opinion sur ceux-ci, et nous n'exprimons pas une opinion distincte sur ces questions.

Nous avons déterminé que les questions décrites ci-après constituent les questions clés de l'audit qui doivent être communiquées dans notre rapport.

<b>Evaluation et comptabilisation des opérations de marge arrière</b>	
Risque identifié	Réponse d'audit
<p>Le groupe dispose d'un nombre important des contrats d'achats signés avec les fournisseurs comprenant des opérations de marge arrière (coopération commerciale, droits d'ouvertures, droits de rénovation, ...) dont le calcul est basé sur les quantités achetées ou d'autres conditions contractuelles comme l'atteinte de seuils ou la progression des volumes d'achats ; Compte tenu du grand nombre de contrats et des spécificités propres à chaque contrat, la correcte évaluation et comptabilisation des opérations de marge arrière au regard des dispositions contractuelles et des volumes d'achats constituent un point clé de l'audit.</p>	<p>Nous avons pris connaissance des contrôles mis en place par le groupe sur le processus d'évaluation et de comptabilisation des opérations de marge arrière, apprécié leur conception et leur application et testé que ces contrôles ont fonctionné efficacement sur la base d'un échantillon de contrats.</p> <p>Nos autres travaux ont notamment consisté pour un échantillon de marge arrière à :</p> <ul style="list-style-type: none"> <li>- Rapprocher les données utilisées dans le calcul des opérations de marge arrière avec les conditions commerciales figurant dans les contrats signés avec les fournisseurs ;</li> <li>- Comparer les estimations faites au titre de l'exercice précédent avec les réalisations effectives correspondantes afin d'évaluer la fiabilité du processus d'estimation ;</li> <li>- Rapprocher les volumes d'affaires retenus pour calculer le montant des opérations de marge arrière attendu au 31 décembre 2023 avec les volumes d'affaires enregistrés dans les systèmes des achats du groupe ;</li> <li>- Réaliser des procédures analytiques substantives sur les évolutions des opérations de marge arrière.</li> </ul>

#### **Responsabilités de la direction et des responsables de la gouvernance à l'égard des états de synthèse consolidés**

La direction est responsable de la préparation et de la présentation fidèle des états de synthèse consolidés conformément au référentiel comptable en vigueur au Maroc, ainsi que du contrôle interne qu'elle considère comme nécessaire pour permettre la préparation d'états de synthèse consolidés exempts d'anomalies significatives, que celles-ci résultent de fraudes ou d'erreurs.

Lors de la préparation des états de synthèse consolidés, c'est à la direction qu'il incombe d'évaluer la capacité du groupe à poursuivre son exploitation, de communiquer, le cas échéant, les questions se rapportant à la continuité de l'exploitation et d'appliquer le principe comptable de continuité d'exploitation, sauf si la direction a l'intention de liquider le groupe ou de cesser son activité ou si aucune autre solution réaliste ne s'offre à elle. Il incombe aux responsables de la gouvernance de surveiller le processus d'information financière du groupe.

#### **Responsabilités de l'auditeur à l'égard de l'audit des états de synthèse consolidés**

Nos objectifs sont d'obtenir l'assurance raisonnable que les états de synthèse consolidés pris dans leur ensemble sont exempts d'anomalies significatives, que celles-ci résultent de fraudes ou d'erreurs et de délivrer un rapport de l'auditeur contenant notre opinion. L'assurance raisonnable correspond à un niveau élevé d'assurance, qui ne garantit toutefois pas qu'un audit réalisé conformément aux normes de la profession au Maroc permettra toujours de détecter toute anomalie significative qui pourrait exister. Les anomalies peuvent résulter de fraudes ou d'erreurs et elles sont considérées comme significatives lorsqu'il est raisonnable de s'attendre à ce que, individuellement ou collectivement, elles puissent influer sur les décisions économiques que les utilisateurs des états de synthèse consolidés prennent en se fondant sur ceux-ci.

Dans le cadre d'un audit réalisé conformément aux normes de la profession au Maroc, nous exerçons notre jugement professionnel et faisons preuve d'esprit critique tout au long de cet audit. En outre :

- Nous identifions et évaluons les risques que les états de synthèse consolidés comportent des anomalies significatives, que celles-ci résultent de fraudes ou d'erreurs, concevons et mettons en œuvre des procédures d'audit en réponse à ces risques, et réunissons des éléments probants suffisants et appropriés pour fonder notre opinion. Le risque de non-détection d'une anomalie significative résultant d'une fraude est plus élevé que celui d'une anomalie significative résultant d'une erreur, car la fraude peut impliquer la collusion, la falsification, les omissions volontaires, les fausses déclarations ou le contournement du contrôle interne ;
- Nous acquérons une compréhension des éléments du contrôle interne pertinents pour l'audit afin de concevoir des procédures d'audit appropriées aux circonstances, et non dans le but d'exprimer une opinion sur l'efficacité du contrôle interne du groupe ;
- Nous apprécions le caractère approprié des méthodes comptables retenues et le caractère raisonnable des estimations comptables faites par la direction, de même que des informations y afférentes fournies par cette dernière ;
- Nous tirons une conclusion quant au caractère approprié de l'utilisation par la direction du principe comptable de continuité d'exploitation et, selon les éléments probants obtenus, quant à l'existence ou non d'une incertitude significative liée à des événements ou situations susceptibles de jeter un doute important sur la capacité du groupe à poursuivre son exploitation. Si nous concluons à l'existence d'une incertitude significative, nous sommes tenus d'attirer l'attention des lecteurs de notre rapport sur les informations fournies dans les états de synthèse au sujet de cette incertitude ou, si ces informations ne sont pas adéquates, d'exprimer une opinion modifiée. Nos conclusions s'appuient sur les éléments probants obtenus jusqu'à la date de notre rapport. Des événements ou situations futurs pourraient par ailleurs amener le groupe à cesser son exploitation ;
- Nous évaluons la présentation d'ensemble, la structure et le contenu des états de synthèse consolidés, y compris les informations fournies dans les notes, et apprécions si les états de synthèse consolidés représentent les opérations et événements sous-jacents d'une manière propre à donner une image fidèle.
- Nous obtenons des éléments probants suffisants et appropriés concernant les informations financières des entités et activités du groupe pour exprimer une opinion sur les états de synthèse consolidés. Nous sommes responsables de la direction, de la supervision et de la réalisation de l'audit du groupe. Nous assumons l'entièvre responsabilité de l'opinion d'audit.

### 3- Consolidation methods

Companies controlled by the LabelVie Group are fully consolidated. LabelVie controls a subsidiary when it is able to direct the financial and operating policies of an entity so as to benefit from its activities.

HLV, MAXI LV, Service LV, Mobi Market, LBV Suisse, LBV EX, and Benznassen Business Center are fully consolidated.

SILAV is proportionally consolidated.

The two entities Aradei Capital and Terramis, 37.62% and 100% owned respectively, are managed and controlled by an independent asset manager, totally autonomous from the company's shareholders. The shares held in these entities are considered as financial investments. They are therefore not included in the scope of consolidation.

### 4- Reciprocal transactions

Reciprocal accounts arising from intra-group transactions are cancelled.

### 5- Main valuation rules

- Goodwill: Goodwill corresponding to the difference between the acquisition cost of the shares and the valuation of the assets and liabilities of the companies acquired is presented under "Goodwill".
- Intangible fixed assets: these mainly comprise other

deferred charges, business goodwill, software and licenses recorded in the balance sheet at acquisition cost. Software and other deferred charges are amortized on a straight-line basis over 5 years.

- Property, plant and equipment: valued at acquisition cost. Depreciation is calculated on a straight-line basis according to the useful life of assets in Morocco. Buildings are depreciated over 20 years, technical installations, equipment and tools over 10 years, computer equipment over 5 years and office equipment and furniture, fixtures and fittings over 10 years.
- Financial assets: These mainly comprise deposits and guarantees maturing in more than one year, carried at acquisition cost.
- Debts in foreign currencies: are booked at the exchange rate shown on the entry D.U.M. At the year-end, unrealized exchange differences are booked as translation adjustments. Provisions for unfavorable differences are recognized in the income statement.

### 6- Earnings per share

Earnings per share are calculated by dividing consolidated net income by the number of shares outstanding at year-end.

**AUDIT DES ETATS DE SYNTHESE**

**Opinion**

Conformément à la mission qui nous a été confiée par votre Assemblée Générale, nous avons effectué l'audit des états de synthèse ci-joints de la société Label'Vie S.A, comprenant le bilan, le compte de produits et charges, l'état des soldes de gestion, le tableau de financement et l'état des informations complémentaires (ETIC) relatifs à l'exercice clos le 31 décembre 2023. Ces états de synthèse font ressortir un montant de capitaux propres et assimilés de **KMAD 1 862 476** dont un bénéfice net de **KMAD 160 943**.

Nous certifions que les états de synthèse cités au premier paragraphe ci-dessus sont réguliers et sincères et donnent, dans tous leurs aspects significatifs, une image fidèle du résultat des opérations de l'exercice écoulé ainsi que de la situation financière et du patrimoine de la société Label'Vie S.A au 31 décembre 2023 conformément au référentiel comptable admis au Maroc.

**Fondement de l'opinion**

Nous avons effectué notre audit selon les Normes de la Profession au Maroc. Les responsabilités qui nous incombent en vertu de ces normes sont plus amplement décrites dans la section « Responsabilités de l'auditeur » du présent rapport. Nous sommes indépendants de la société conformément aux règles de déontologie qui s'appliquent à l'audit des états de synthèse et nous nous sommes acquittés des autres responsabilités déontologiques qui nous incombent selon ces règles. Nous estimons que les éléments probants que nous avons obtenus sont suffisants et appropriés pour fonder notre opinion d'audit.

**Questions clés de l'audit**

Les questions clés de l'audit sont les questions qui, selon notre jugement professionnel, ont été les plus importantes dans l'audit des états de synthèse de la période considérée. Ces questions ont été traitées dans le contexte de notre audit des états de synthèse pris dans leur ensemble et aux fins de la formation de notre opinion sur ceux-ci, et nous n'exprimons pas une opinion distincte sur ces questions.

Nous avons déterminé que les questions décrites ci-après constituent les questions clés de l'audit qui doivent être communiquées dans notre rapport

Evaluation et comptabilisation des opérations de marge arrière	
Risque identifié	Réponse d'audit
<p>La société dispose d'un nombre important des contrats d'achats signés avec les fournisseurs comprenant des opérations de marge arrière (coopération commerciale, droits d'ouvertures, droits de rénovation, ...) dont le calcul est basé sur les quantités achetées ou d'autres conditions contractuelles comme l'atteinte de seuils ou la progression des volumes d'achats ; Compte tenu du grand nombre de contrats et des spécificités propres à chaque contrat, la correcte évaluation et comptabilisation des opérations de marge arrière au regard des dispositions contractuelles et des volumes d'achats constituent un point clé de l'audit.</p>	<p>Nous avons pris connaissance des contrôles mis en place par la société sur le processus d'évaluation et de comptabilisation des opérations de marge arrière, apprécié leur conception et leur application et testé que ces contrôles ont fonctionné efficacement sur la base d'un échantillon de contrats.</p> <p>Nos autres travaux ont notamment consisté pour un échantillon de marge arrière à :</p> <ul style="list-style-type: none"> <li>- Rapprocher les données utilisées dans le calcul des opérations de marge arrière avec les conditions commerciales figurant dans les contrats signés avec les fournisseurs ;</li> <li>- Comparer les estimations faites au titre de l'exercice précédent avec les réalisations effectives correspondantes afin d'évaluer la fiabilité du processus d'estimation ;</li> <li>- Rapprocher les volumes d'affaires retenus pour calculer le montant des opérations de marge arrière attendu au 31 décembre 2023 avec les volumes d'affaires enregistrés dans les systèmes des achats de la société ;</li> <li>- Réaliser des procédures analytiques substantives sur les évolutions des opérations de marge arrière.</li> </ul>
Titres de participation	
Risque identifié	Réponse d'audit
<p>Au 31 décembre 2023, la valeur nette comptable des titres de participation détenus par la société Label'Vie s'élève à KMAD 2 460 264. Ces titres sont comptabilisés au coût historique d'acquisition.</p> <p>La société procède à chaque clôture annuelle à l'évaluation de la valeur actuelle de ces titres de participation. Cette valeur actuelle est estimée soit en fonction de l'actif net comptable, soit en fonction de la rentabilité et des perspectives d'avenir du titre. En cas de baisse durable de la valeur actuelle et si celle-ci est inférieure à la valeur nette comptable, une provision pour dépréciation est constatée.</p> <p>L'estimation de la valeur actuelle des titres requiert l'exercice du jugement de la direction dans son choix des éléments à considérer selon les participations concernées.</p> <p>Dans ce contexte, nous avons estimé que la correcte évaluation des titres de participation constituait un point clé d'audit, en raison du poids de ces actifs dans le bilan et de l'importance des jugements de la direction.</p>	<p>Au 31 décembre 2023, la valeur actuelle des titres de participation de la société Label'Vie a été déterminée sur la base des éléments historiques. Pour apprécier le caractère raisonnable de cette valeur actuelle, nous nous sommes assuré que les quotes-parts d'actif net retenues concordent avec les comptes des entités compte tenu des rapports des commissaires aux comptes de ces entités et que les calculs arithmétiques sont corrects.</p>

## **Responsabilités de la direction et des responsables de la gouvernance pour les états de synthèse**

La direction est responsable de l'établissement et de la présentation sincère de ces états de synthèse, conformément au référentiel comptable admis au Maroc. Cette responsabilité comprend la conception, la mise en place et le suivi d'un contrôle interne relatif à l'établissement et la présentation des états de synthèse ne comportant pas d'anomalie significative, ainsi que la détermination d'estimations comptables raisonnables au regard des circonstances.

Lors de la préparation des états de synthèse, c'est à la direction qu'il incombe d'évaluer la capacité de la société à poursuivre son exploitation, de communiquer, le cas échéant, les questions relatives à la continuité de l'exploitation et d'appliquer le principe comptable de continuité d'exploitation, sauf si la direction a l'intention de liquider la société ou de cesser son activité ou si aucune autre solution réaliste ne s'offre à elle.

Il incombe aux responsables de la gouvernance de surveiller le processus d'information financière de la société.

## **Responsabilités de l'auditeur pour l'audit des états de synthèse**

Notre responsabilité est d'exprimer une opinion sur ces états de synthèse sur la base de notre audit. Nous avons effectué notre audit selon les Normes de la Profession au Maroc.

Nos objectifs sont d'obtenir l'assurance raisonnable que les états de synthèse pris dans leur ensemble sont exempts d'anomalies significatives, que celles-ci résultent de fraudes ou d'erreurs et de délivrer un rapport de l'auditeur contenant notre opinion. L'assurance raisonnable correspond à un niveau élevé d'assurance, qui ne garantit toutefois pas qu'un audit réalisé conformément aux normes professionnelles permettra toujours de détecter toute anomalie significative qui pourrait exister. Les anomalies peuvent résulter de fraudes ou d'erreurs et elles sont considérées comme significatives lorsqu'il est raisonnable de s'attendre à ce que, individuellement ou collectivement, elles puissent influer sur les décisions économiques que les utilisateurs des états de synthèse prennent en se fondant sur ceux-ci.

Dans le cadre d'un audit réalisé conformément aux normes de la profession au Maroc, nous exerçons notre jugement professionnel et faisons preuve d'esprit critique tout au long de cet audit. En outre :

- Nous identifions et évaluons les risques que les états de synthèse comportent des anomalies significatives, que celles-ci résultent de fraudes ou d'erreurs, concevons et mettons en œuvre des procédures d'audit en réponse à ces risques, et réunissons des éléments probants suffisants et appropriés pour fonder notre opinion. Le risque de non-détection d'une anomalie significative résultant d'une fraude est plus élevé que celui d'une anomalie significative résultant d'une erreur, car la fraude peut impliquer la collusion, la falsification, les omissions volontaires, les fausses déclarations ou le contournement du contrôle interne ;
- Nous acquérons une compréhension des éléments du contrôle interne pertinents pour l'audit afin de concevoir des procédures d'audit appropriées aux circonstances, et non dans le but d'exprimer une opinion sur l'efficacité du contrôle interne de la société ;
- Nous apprécions le caractère approprié des méthodes comptables retenues et le caractère raisonnable des estimations comptables faites par la direction, de même que des informations y afférentes fournies par cette dernière ;
- Nous concluons quant au caractère approprié de l'utilisation par la direction du principe comptable de continuité d'exploitation et, selon les éléments probants obtenus, quant à l'existence ou non d'une incertitude significative liée à des événements ou situations susceptibles de jeter un doute important sur la capacité de la société à poursuivre son exploitation. Si nous concluons à l'existence d'une incertitude significative, nous sommes tenus

d'attirer l'attention des lecteurs de notre rapport sur les informations fournies dans les états de synthèse au sujet de cette incertitude ou, si ces informations ne sont pas adéquates, d'exprimer une opinion modifiée. Nos conclusions s'appuient sur les éléments probants obtenus jusqu'à la date de notre rapport. Des événements ou situations futurs pourraient par ailleurs amener la société à cesser son exploitation ;

- Nous évaluons la présentation d'ensemble, la structure et le contenu des états de synthèse, y compris les informations fournies dans les états de synthèse, et apprécions si les états de synthèse représentent les opérations et événements sous-jacents d'une manière propre à donner une image fidèle.

Nous communiquons aux responsables de la gouvernance notamment l'étendue et le calendrier prévus des travaux d'audit et nos constatations importantes, y compris toute déficience importante du contrôle interne que nous aurions relevée au cours de notre audit.

## **VERIFICATIONS ET INFORMATIONS SPECIFIQUES**

Nous avons procédé également aux vérifications spécifiques prévues par la loi et nous nous sommes assurés notamment de la sincérité et de la concordance, des informations données dans le rapport de gestion du conseil d'administration destiné aux actionnaires avec les états de synthèse de la société.

Par ailleurs et conformément à l'article 172 de la loi 17-95 telle que modifiée et complétée, nous portons à votre connaissance qu'au cours de cet exercice, la société Label'Vie SA a procédé à :

- La création de la société FUZION INTERNATIONAL. La participation de Label'Vie s'élève à un montant de KMAD 300 pour un pourcentage de détention de 100%.
- La création de la société PROFUZION CONSEIL. La participation de Label'Vie s'élève à un montant de KMAD 300 pour un pourcentage de détention de 100%.
- La création de la société E-MAXI. La participation de Label'Vie s'élève à un montant de KMAD 300 pour un pourcentage de détention de 100%.
